Immense Gratitude

Tangible To Intangible

Their Leaves And Fibres Clothed Us

A photograph of a snowy night scene in Central Park, New York City. The foreground is covered in a thick layer of snow, with dark, bare tree trunks and branches silhouetted against the light. In the background, the Manhattan skyline is visible, with several skyscrapers illuminated by city lights. The sky is a hazy, warm orange-brown color, suggesting the glow of city lights or a low sun. The overall atmosphere is quiet and serene.

On Any Planet, Round Or Square

A close-up, low-angle shot of a golden Buddha statue. The statue is shown from the chest up, seated in a meditative posture. Its eyes are closed, and its expression is serene. The lighting is warm and directional, coming from the left, which highlights the contours of the face and the folds of the robe, while leaving the right side in soft shadow. The background is a dark, textured wall, possibly made of stone or wood, which adds to the ancient and sacred atmosphere of the scene. The text "Birds Flown From A Golden Mountain" is superimposed in a clean, white, sans-serif font across the middle of the image, positioned to the right of the Buddha's head.

Considerable Access

A sepia-toned photograph of a city street scene. In the foreground, a curved street lamp is visible. The background features several tall, multi-story buildings with many windows. Some buildings have a grid-like facade, while others have a more solid appearance. The overall tone is warm and historical.

Simple Mental Projection

A blurry night photograph of a city street. The image is out of focus, showing the silhouettes of buildings and the warm, yellowish glow of lights from windows and street lamps. The text "Realms Of Varied Beings" is superimposed in the center in a white, serif font.

These solo piano improvisations were recorded in the middle of a cold, dark winter as the rain turned into snow.
